

PMOSafe™ Cold Plasma Sanitization for Cruises, Hotels, Apartments, and More!

PROVEN TO KILL VIRUSES, BACTERIA, MOLD AND GERMS!

Ozone (O₃) is known as Mother Nature's best germicide and sanitizer because it scientifically destroys all airborne and surface pathogens such as bacteria, viruses, fungi, mold and germs!

Naturally found in the Earth's atmosphere, ozone is a gas that is composed of three oxygen atoms. The third oxygen atom can detach from the complete ozone molecule, and re-attach to molecules of other substances like bacteria, viruses, and mold. This natural process alters their chemical composition, inactivating these harmful pathogens.

Introducing the **PMOSafe™ Sanitization System** designed to effectively distribute ozone throughout cruise ship cabins, hotel rooms, apartments and more!

- ▶ SMART DEVICE DESIGNED FOR CRUISE SHIPS
- ▶ EASY ON-SITE INDIVIDUAL CONTROL PANELS
- ▶ QR CODE TO CONTROL VIA MOBILE PHONE
- ▶ REMOTE MONITOR & CONTROL AVAILABLE
- ▶ ACTUAL DIMENSIONS: 12" x 12" x 3"

USER-FRIENDLY AND CUSTOMIZABLE!

With over 3 decades of successfully delivering innovative technical engineering products and solutions, Clear Path Holdings, Corp ("CPH"), boasts a proven track record of over 3,000 installations, spanning across two continents. Our scientists remain at the forefront in advancing breakthroughs in state of the art sanitization and disinfection technology.

THE POWER OF NATURAL PURE OZONE IS PROVEN TO:

DESTROY PATHOGENS ON SURFACES AND AIRBORNE!

ELIMINATE ODORS!

REDUCE ALLERGENS!

DISINFECT 50X MORE EFFECTIVELY THAN THE MOST POPULAR DISINFECTANT!

**KILL VIRUSES, BACTERIA, MOLD AND GERMS
WITH NATURAL PURE OZONE!**

SANITIZE ALL YOUR INDOOR SPACES WITH PURE OZONE!

- ▶ CRUISE SHIP CABINS
- ▶ HOTEL ROOMS
- ▶ APARTMENTS
- ▶ INDUSTRIAL BUILDINGS
- ▶ DISTRIBUTION CENTERS
- ▶ MANUFACTURING FACILITIES
- ▶ RESTAURANTS

- ▶ FOOD MARKETS
- ▶ SHOPPING MALLS
- ▶ SCHOOLS
- ▶ NURSING HOMES
- ▶ MEDICAL CENTERS
- ▶ RESIDENTIAL PROPERTIES
- ▶ OFFICES
- ▶ VEHICLES

WHY CHOOSE PMOSafe™

CONTROLLED AND MONITORED 24/7/365

PMOSafe is the ONLY Cold Plasma Sanitization System that is controlled and monitored 24/7/365 with 24/7/365 customer support.

CUSTOMER PORTAL

PMOSafe is the ONLY system that has a customer portal. Users have 24/7/365 access to view their PMOSafe™ System's operating schedule.

CUSTOMIZABLE INSTALLATION

PMOSafe's expertly trained professional installers can customize your commercial or residential installation to best fit your sanitization needs and schedule.

LOW COST

Technology is being offered on a “turnkey basis” using a monthly charge based on square footage.

PROVEN TECHNOLOGY

With over 4,000 units installed across two continents, Ozone produced by the PMOSafe system has been proven to dramatically reduce bacteria, yeast and mold.
