

PMOSafe™
Patent-Pending
Cold Plasma
Sanitization System!

PROVEN TO KILL VIRUSES, BACTERIA, MOLD AND GERMS

Ozone (O₃) is known as Mother Nature's best germicide and sanitizer because it **scientifically destroys all airborne and surface pathogens such as bacteria, viruses, fungi, mold and germs!**

Naturally found in Earth's atmosphere, ozone is a gas that is composed of three oxygen atoms. The third oxygen atom can detach from the complete ozone molecule, and re-attach to molecules of substances like bacteria, viruses, and mold. **This re-attachment process punctures cell walls of the dangerous pathogens rendering them harmless!**

Once the third oxygen atom has detached from the O₃ molecule, the remaining two oxygen atoms are simply oxygen (O₂) which is air we breathe.

O₃ is a natural by-product of Cold Plasma or Non-thermal Plasma and is GRAS (generally recognized as safe) as a sanitizer when used as directed.

Cold Plasma is the newest method of producing ozone without alteration of nitrogen in the air. Thus, no unwanted nitrogen oxides, a known air pollutant, are produced.

PMOSafe™ Device and Sensor
Unit: 24" x 10" x 5.5"
Sensor: 4.25" x 2.5" x 1.5"

THE POWER OF NATURAL PURE OZONE IS PROVEN TO:

**DESTROY PATHOGENS
ON SURFACES AND AIRBORNE!**

**KEEP HVAC SYSTEM FREE FROM
MOLD AND BACTERIA!**

ELIMINATE ODORS!

REDUCE ALLERGENS!

**KILL VIRUSES, BACTERIA, MOLD AND GERMS
WITH NATURAL PURE OZONE!**

SANITIZE ALL YOUR INDOOR SPACES WITH PURE OZONE!

- ▶ CRUISE SHIP CABINS
- ▶ HOTEL ROOMS
- ▶ APARTMENTS
- ▶ INDUSTRIAL BUILDINGS
- ▶ DISTRIBUTION CENTERS
- ▶ MANUFACTURING FACILITIES
- ▶ RESTAURANTS
- ▶ VETERINARY CLINICS
- ▶ FOOD MARKETS
- ▶ SHOPPING MALLS
- ▶ SCHOOLS
- ▶ NURSING HOMES
- ▶ MEDICAL CENTERS
- ▶ RESIDENTIAL PROPERTIES
- ▶ OFFICES
- ▶ VEHICLES

WHY CHOOSE PMOSafe™

CONTROLLED AND MONITORED 24/7/365

PMOSafe is the ONLY Cold Plasma Sanitization System that is controlled and monitored 24/7/365 with 24/7/365 customer support.

CUSTOMER PORTAL

PMOSafe is the ONLY system that has a customer portal. Users have 24/7/365 access to view their PMOSafe™ System's operating schedule.

CUSTOMIZABLE INSTALLATION

PMOSafe's expertly trained professional installers can customize your commercial or residential installation to best fit your sanitization needs and schedule.

LOW COST

Technology is being offered on a “turnkey basis” using a monthly charge based on square footage.

PROVEN TECHNOLOGY

With over 4,000 units installed across two continents, Ozone produced by the PMOSafe system has been proven to dramatically reduce bacteria, yeast and mold.
